

ORIGINAL

FIRE SPRINKLER SERVICE LINE TARIFF

UTILITY: Big Park Water Company
DOCKET NO. W-01624A-20- 0375

EFFECTIVE DATE: January 18, 2021

I. Purpose and Applicability

Purpose

This tariff establishes the charges and requirements for installation of Fire Sprinkler Service Lines within the Big Park Water Company ("Company") service area.

Applicability

This tariff applies to all customer requested installations of Fire Sprinkler Service Lines that are not being installed as part of a Main Extension Agreement.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Commission's rules and regulations governing water utilities shall apply in interpreting this tariff schedule.

"Company" means Big Park Water Company.

"Fire Sprinkler Service Line" means a service line separate and distinct for the primary water service line that serves a fire sprinkler system.

III. Tariff

Except as modified herein, the provisions of R14-2-405 apply to Fire Sprinkler Service Lines.

Installation of Fire Sprinkler Service Lines and establishment of Fire Sprinkler Service shall be scheduled by Company in a timely manner considering the time necessary for design, permitting and construction.

The customer shall be responsible for the cost of installing Fire Sprinkler Service Lines. Cost shall include design, permitting, materials, trenching, backfill, labor, testing, roadway restoration and related costs.

The customer shall pay to Company the estimated cost of the Fire Sprinkler Service Line in advance of installation by Company. All costs shall be trued-up at completion of construction. In the event the Company's actual cost is less than estimated, the Company shall refund the unused funds to the customer. In the event the Company's actual cost is greater than estimated, the customer shall pay the difference to Company.

If approved by the Company, the customer may design and install the Fire Sprinkler Service Line, paying all costs therefore directly. The customer must provide all documentation of costs to the Company prior to receiving service.

The cost of the Fire Sprinkler Service Line shall be a non-refundable contribution in aid of construction.

The cost of the Fire Sprinkler Service Line is subject to income tax gross-up in accordance with the requirements of Decision No. 77540.
